GreyFox

Sympatico

Design: Perch.ie

A Concept of Urbanism

As we move toward higher density living and working in urban environments, we lose touch with our naturalistic roots and biophilic requirements. We shut off from people as our bodies and minds acclimatise to the built environment.

As we move further from the fields, our focus at Grey Fox is to reconnect you, through the critical heritages of being human, in the 21st century.

In re-imagining how we work, learn and connect our collections provoke joy and surprise!

At GreyFox we observe, listen and answer to the basic needs of a complex society with a focus on human movement.

GreyFox is a research and design led initiative, whose ambition is to develop, produce and distribute high quality, humanised furniture solutions for the 21st Century.

We develop solutions to focus on human movement, user health and wellbeing.

Sympatico

for GreyFox, by Perch

We specialise in research-led design for applied human movement. We conduct quantitative and qualitative research, to find out how people communicate, congregate, work and learn. Our passion is developing new solutions in emergent fields, to improve the quality of life for people.

We consider ergonomics, psychology and aesthetics as equally important and we are hugely excited to be developing new and elegant solutions for GreyFox.

Our Sympatico Collection is designed around providing essential, untethered agility.

Collaboration, social engagement and adaptability are key drivers in attracting people to the office environment. With this collection, we focused on facilitating better collaboration between workers, when sharing thoughts or brainstorming.

Sympatico enables easy, untethered and fluid engagement providing uncompromised experiences in both traditional and non-traditional spaces.

Access to movement. Access to power. Access to true mobility.

When we start with a focus purely on the Human; their psychological, physiological and biophilic needs, we find that the concept, for something new and meaningful, designs itself.

Familiar innovation

We developed the core pieces for our Sympatico collection around traditional icons, which we have grown to love. Each piece has received an injection of innovation and technology, to re-imagine them as key utilities in modern working & learning spaces.

True agility

Sympatico supports a truly agile environment, facilitating daily change and wide ranging group dynamics, through its mobile power and mobile video conference technology.

Work

Untethered

No wall plugs? No problem! Our battery powered charging stations and Display units enable meetings to happen in any area of your workspace.

Breakout

Huddle Meetings in a Hybrid World

Effective spaces for effective teams facilitate rich and meaningful engagements and support today's hybrid work arrangements. Agile solutions provide for virtual participation.

Hospitality

Our beautiful furniture provides meaningful, refreshing assistance. Mobile, untethered power, clean lines and interpretable utility were key drivers for our Sympatico development.

Wireless

Stop and recharge
Your 'water-cooler' moments re-imagined.

Surprise awaits

An oasis of utility supports nomadic working.

Aesthetic functionalism

Stripped back, practical, beautiful.

A fresh take

The GreyFox collection aims to improve the overall experience and interaction of workers and learners throughout the work day.

Better workplaces in a better world

At GreyFox the principles of longevity, purpose and sustainability guide everything we do; we've built our processes around them. Our furniture is designed to promote the health of its users, whilst sustaining the health of our planet.

Our customers buy less because our products do more. They stand the test of time and the demands of their users.

Our furniture is designed to be easily maintained, renewed and serviced. We keep our products out of landfill, we take them back at end of life and ensure they are repurposed. We manufacture our products locally. We stand over and ensure the sustainability of all stages of our product development.

Our conscience guides the selection of our materials and suppliers. We want to produce furniture made of sustainably forested woods, natural fabrics and water based finishes.

At GreyFox, our commitment to sustainability is resolute. Our environmental conscience guides what we do and will adapt and evolve with us. We design and manufacture for better workplaces in a better world.

With love, care and attention,
in Ireland
